

Airline Pilot Training | **A320 Type Rating**

A320 Type Rating for Candidate Airline Pilots

INTRODUCTION

The A320 Type Rating Course is a program designed exclusively by active pilots of world-wide airlines, members of evaluation and pilot selection committees, as well as airline pilot instructors and examiners.

The course is aimed at candidates, already involved in the field of aviation, who have set a goal to occupy a position in the cockpit of a large commercial aircraft in a short period of time, with a guaranteed career and evolvement as airline pilots.

PRE - ENTRY REQUIREMENTS

Prerequisites for the registration of those interested and wish to study at the Approved Training Organization FAS PILOT ACADEMY are:

- Valid CPL/IR/MEP license with ATPL Theory Credit
- EASA Medical Certificate Class 1
- EASA Language Proficiency Level 4 (at least)
- MCC & UPRT completed

THE A320 TYPE RATING COURSE INCLUDES:

- All registration procedures in the organization
- Continuous support during theoretical and flight training
- Continuous monitoring and evaluation of the provided training
- A320 training Manual
